* IC 13-15-4-1 (as amended by HEA 1919, effective July 1, 1999) required the time frame for permitting decisions on applications for Drinking Water Facility Construction Permits to be reduced from 120 days to 90 days. In addition, state rule 327 IAC 8-3-5.5 limits permit review of all Drinking Construction Permit applications -- except those for water treatment plants -- to 60 days, the decisions deadline depicted on this chart.

** This number has been amended to account for data logged in late as a result of a computer failure.

***The data provided for applications pending represents a "snapshot" of the number of permit applications pending at the end of the given month.

****This value has been amended from 29 to 30 permits issued because an issued permit was recorded into the database late.
